

Eskimold Did you ever want to build your own igloo but were too intimidated to try? Now you have no excuse. Based in Creston, B.C., **Tundra North Manufacturing Ltd.** has created the perfect tool to help you build your own winter hideaway or snowmobiling accommodation. This specially designed mold will produce perfect blocks of snow. www.eskimold.com

Lighten your load

The new Lightlift produced by **Gallier** makes it easy for just one person to load and unload a snowmobile from a trailer or pickup truck. Small wheels are strategically placed at the balance point of the ramp when the snowmobile is loaded. This allows the tail of the Lightlift to be lifted with very little force required. Two stoppers prevent the ramp from sliding when loading and during transport. www.gallier.no
